

**ST. FRANCES CABRINI STUDENT ACADEMIC ELIGIBILITY AGREEMENT  
FOR PARTICIPATION IN ATHLETIC PROGRAMS – Gr. 4-8**

(It is required that this agreement be signed by the student athlete prior to participation in either practices or games.)

This is the philosophy and mission of St. Frances Cabrini School, that students develop a commitment to lifelong learning and self-realization within a Catholic Christian context. One of the primary purposes of the school is to help each child achieve academic success. Therefore it is essential that enrichment and/or extra-curricular activities be secondary to this goal.

Athletic programs are an important adjunct to the programs of the school. However, it is essential that students, parents, staff and coaches work together and strive to foster student activities within the overall primary goals of the school.

In mutual support and cooperation, all involved in the student's curricular and extra-curricular activities are to observe the following:

**All students participating in CYO athletic programs shall maintain a passing grade in all classes. Passing grades are a minimum of a "D". If a student does not maintain passing grades in any class, that student shall be suspended from participation in extra-curricular sports until the student's academic performance is raised to a minimum of a "D". The minimum suspension period is for one (1) week from notification of failing grades to the student, parent and coach.**

The following procedures shall apply:

- 1. The teacher will notify the student, parent and coach when a student's weekly performance falls below passing.**
- 2. Suspension will be effective immediately from the date of notification.**
- 3. The student will be removed from the active roster for practices and games during the period of suspension.**
- 4. At the suspension period, the student is to obtain from the teacher a written notice of academic status. The student must present this to the coach.**
- 5. Should the student's grade/s not be above failing, the student will remain on suspension until the acceptable level of performance has been achieved.**
- 6. The student may participate in practices and games when the teacher notifies the parent and coach of the improved academic status.**

**Agreement:**

I have read the above and agree to participate in CYO athletics under these conditions.
